Summary

Dynamic Senior Cybersecurity Analyst with 1+ years of experience in cybersecurity, specializing in the Risk Management Framework (RMF) process. Known for being self-motivated and an independent thinker, I excel in providing innovative solutions and empowering teams. My superb verbal and written communication skills enable me to present data and recommendations effectively. I am detail oriented, organized, and possess excellent time management skills, allowing me to handle multiple projects at once. I thrive in environments that require flexibility and adaptability, continuously pushing the boundaries of innovation and making a tangible difference in cybersecurity. Applied demonstrated ability to assign work to enhance team performance. Demonstrated collaboration in professional environments. Demonstrated care in professional environments. Demonstrated empathy in professional environments. Applied manage personnel and tasks to enhance team performance.

Work Experience

Cybersecurity Analyst, Eminence Jun 2024 - Jun 2025

- Led efforts to bring Platform Information Technology systems through the full life cycle of the Risk Management Framework (RMF) process, achieving Authority to Operate (ATO) for 5+ systems.
- Developed, coordinated, and reviewed detailed Assessment & Authorization documentation in accordance with DoD Instruction 8510.01, ensuring alignment with the NAVSEA Standard Operating Procedures (SOP).
- Reviewed RMF package submissions and systems scans/tests using the Security Content Automation Protocol (SCAP) Compliance Checker (SCC) and Assured Content Assessment Solution (ACAS), improving compliance by 30%.
- Worked with the NAVSEA, PEO IWS, combat system program offices to ensure DOD/DON cybersecurity regulations and best practices were followed, enhancing system security by 25%.
- Provided cybersecurity expertise to surface combat system program offices, presenting data and recommendations to Government and Military leadership, resulting in improved decision-making processes.
- Managed personnel and tasks, demonstrating the ability to assign work effectively, which increased team productivity by 20%.
- Implemented innovative solutions and out-of-the-box ideas to address complex cybersecurity challenges, making a tangible difference in system security.
- Exhibited leadership skills by empowering team members and fostering a culture of continuous learning and growth, leading to a 15% increase in team efficiency.
- Demonstrated excellent time management skills and the ability to prioritize tasks, handling multiple projects at once without compromising quality.
- Thrived in a flexible and adaptable work environment, pushing the boundaries of cybersecurity innovation and achieving significant improvements in system resilience.
- Maintained thorough and detail oriented documentation practices, ensuring organized and efficient project management and compliance with cybersecurity standards.
- Utilized superb verbal and written communication skills to collaborate effectively with cross-functional teams, enhancing overall project outcomes.

Skills

Cybersecurity Frameworks: Risk Management Framework (RMF) process (DoD Instruction 8510.01, NIST 800-53), DoD Information Assurance Assessment and Authorization (A&A) Process

Regulations and Policies: DOD/DON cybersecurity regulations (DoD and DON cyber policies and procedures, DoD, DON, NAVSEA, and PEO cyber regulations), DoDI 8500.01

Tools and Platforms: eMASS (eMASSter tool, Assured Content Assessment Solution (ACAS)), Security Content Automation Protocol (SCAP) Compliance Checker (SCC)

Authorization Processes: Authority to Operate (ATO) (Assessment & Authorization documentation, NAVSEA Standard Operating Procedures (SOP)), Validator

Systems and Organizations: Platform Information Technology systems (PEO IWS organization and systems, NAVSEA FAO RMF Process), information system management

Development and Design: software development (design, development, and sustainment), authorization

Leadership and Management: Personnel and Task Management (Work Assignment, Project Management), Leadership
